HISTORY

- 1907 Founded as part of Degerfors steelworks
- 1987 Transformed into an independent company
- 2001 Core business – advanced forming
- 2007 100th anniversary
- 2007 Acquires further premises

BUSINESS IDEA

- Specialise in hot and cold forming of steel/metal
- Complementary cutting, plate works and welding
- Heat treatment – quenching and tempering, etc.
- Best in large, thick plates as well as complex shapes
- Participate in design – optimisation of thicknesses, etc.
- Complete products as well as individual components
- Great flexibility to handle large objects and short series
- High quality and dependability

CUSTOMERS

With customers all around the world, Deform exports over 70% of its production. Important customer segments are:

- **Pressure vessel manufacturers** with end customers in the oil and gas, energy, pulp and paper, nuclear power and submarine industries.
- **Protective equipment manufacturers** focused on vehicle and personal protection as well as on the destruction and handling of explosive devices.
- **Heavy plate, steel and staple industries** primarily straightening, forming and welding.
- **Large works of art in sheet metal** predominantly civic commissions.

OWNERS

Mats Bergsjö and Bengt Christensson each have a 50% holding in Deform. Bengt is the company's MD. Mats is the chairman of the board of directors of this and a number of other companies. Both have long industrial experience and great confidence in Deform's continuing development.
